

## GUY KAWASAKI

### TESTIMONIALS

“Guy Kawasaki is one of the most insightful voices in Silicon Valley!” — Ann Grimes, Stanford University

“Guy Kawasaki is clearly one of the best keynote speakers available on the market.”—  
Technology Firm

“Guy was awesome! Very on point, easy to work with, was accommodating, with a fantastic message! Guy was the talk of our show!”—Industry Trade Magazine

“Your keynote this morning was one of the best I’ve heard over my 20+ years attending various conferences and meetings. I heard many keynotes from the likes of Colin Powell to Norman Schwarzkopf to the many executives over my career at Xerox but yours was refreshing, especially your comments about developing a mission statement. Boy how that hit home!”

“Guy, I wanted to thank you and let you know that your “Art of the Start” presentation was one of the best business presentations I have ever had the pleasure of attending - thank you very much”!

“Wow! Way to hit it out of the park. I thoroughly enjoyed your session.... You had me listening with both ears and my mind was engaged. I appreciate your sense of humor and the subject matter was powerful.”

“On a scale of 1 to 10 your presentation was clearly an 11. Everyone I spoke to truly enjoyed it and had nothing but positive praise. The (subsequent) workshops were clearly inspired by much of what you had to say. Many (other) presenters found ways to weave parts of your presentation into their own which only demonstrates the strength of your message...I sat a few seats away from Dr. (name omitted) and I don’t think I have ever seen a guy in a suit enjoy a presentation more and laugh harder than he did. Everyone loved it! If I had one hope concerning this event it was that the next time we did it people would reflect back on the first one and say, it was really great, let’s go to it again. Thanks to you I think we accomplished that mission.”

“I really enjoyed your presentation today.... I thought it was not only informational, but inspirational.”

“...Overwhelmed doesn’t come close to expressing my feelings when you spoke. A man after my own heart; Do the right thing. Do it for the right reasons. Have passion. Ethics. Values. I understand you’ve written several books. I will be looking into them. If any of them speak to the “value” quotient that I heard on Friday, you can be assured you’ve acquired a new reader.”

“Thanks for your humble and insight-filled presentation....”

“I really enjoyed what you had to say. It hit home for me.”

“What a fantastic presentation. Thanks very much for the good humor and the very important message.”
